

UPMACS Professional Software Services

Monitor, Alarm & Control Software

UPMACS has over 25 years experience...

building and maintaining M&C systems for an impressive and growing list of satisfied customers from around the world. UPMACS understand that in this day and age cost and return on investment are more important than ever. However, in the satellite and broadcast industries there is no room for compromise. UPMACS is committed to delivering the best value through product and service options that exceed customer needs without compromise.

Services:
